## Mixed Greens: Mixed Media Juried Exhibition

### GREEN:

The word can be an adjective, a verb, and a noun. But what does GREEN mean to us? Green is associated with the free pleasures of nature with its vibrant flora and fauna. It is a positive Earth-friendly stance connected to our environment.

We use it to describe youthfulness, innocence, and naiveté. Green can be a sickly complexion or the flourishing growth of the Spring season. Green is associated with luck in the Irish shamrock. It conjures images of money and materialistic wealth and negative feelings such as envy and jealousy. Or at its most basic form, green is simply the color located between blue and yellow on the color spectrum.
