

A Note About Originality

Arts Center East submission guidelines for exhibits state “All work must be original.” Submitted art cannot be a replication or recreation of an existing work of art.

Work submitted for Arts Center East exhibits cannot be done under instruction, with the exception of the ACE Students Exhibit.

Reference materials must be original or used with consent. You can use your own photographs of those of family or friends who have given you permission. (Attribution is unnecessary in this case.)

Work in homage to or inspired by another work of art must be original in concept (not a direct copy or imitation) and should be clearly attributed.
